PROFESSIONAL EXPERIENCE

Freelancer

Web Developer

November 2022 - Present

Remote

- **Custom Website Development:** Designed and developed custom websites for clients across various industries, tailoring each project to meet specific client requirements and brand aesthetics.
- **Client Consultation and Requirement Gathering:** Conducted initial consultations with clients to understand their needs, gathered detailed project requirements, and provided expert advice on the best solutions.
- **Full-Stack Development:** Utilized a range of technologies including HTML, CSS, JavaScript, and backend technologies (e.g. Django) to create responsive and dynamic websites.
- **SEO and Performance Optimization:** Applied SEO best practices to improve website visibility in search engines, and optimized site performance for faster load times and better user experience.
- **Responsive Design:** Ensured that all websites were fully responsive and mobile-friendly, providing a consistent user experience across devices and screen sizes.
- **Maintenance and Support:** Provided ongoing maintenance and technical support for clients, ensuring their websites remained up-to-date, secure, and fully functional.
- **Project Management:** Managed multiple projects simultaneously, setting timelines, coordinating with clients, and ensuring timely delivery of high-quality web solutions.
- **Marketing and Client Acquisition:** Utilized social media, networking, and referral strategies to attract new clients, build a strong freelance portfolio, and establish a reputation for quality and reliability.

Jars Solutions Limited

Software Engineer

March 2024 - May 2024

California, United State • Remote

- **Full-Stack Development:** Designed, developed, and maintained both frontend and backend components of web applications, ensuring seamless integration and optimal performance.
- **Advanced Frontend Development:** Implemented complex user interfaces using modern JavaScript frameworks (e.g., React, Nextjs), enhancing user experience and interactivity.
- **Scalable Backend Solutions:** Developed and optimized server-side logic and database structures using technologies like Django and Supabase to support scalable web applications.
- **API Development and Integration:** Created and maintained RESTful APIs to facilitate communication between frontend and backend systems, and integrated various third-party APIs to extend application functionality.
- **Code Optimization and Refactoring:** Reviewed and refactored existing codebases to improve efficiency, maintainability, and scalability, adhering to best coding practices and standards.
- **Testing and Deployment:** Conducted thorough testing (unit, integration, and end-to-end) and automated deployment processes using CI/CD tools to ensure reliable and efficient software releases.
- **Continuous Learning and Improvement:** Stayed updated with the latest industry trends and technologies, and proactively suggested and implemented innovative solutions to improve the company's software offerings.

Jars Solutions Limited

Software Engineer Intern

October 2023 - March 2024

California, United State • Remote

- **Assisted in Web Development Projects:** Collaborated with senior developers to build and maintain client websites, ensuring high performance, responsiveness, and user-friendly design.
- **Frontend Development:** Utilized HTML, CSS, and JavaScript to create and enhance user interfaces, focusing on cross-browser compatibility and mobile responsiveness.

- **Backend Support:** Assisted in the development and maintenance of server-side logic using technologies such as Django, contributing to the creation of robust web applications.
- **Code Review and Debugging:** Participated in code reviews and debugging sessions, ensuring code quality and identifying and resolving software defects.
- **API Integration:** Worked on integrating third-party APIs to enhance website functionality, improving user experience and adding new features.
- **Version Control:** Used Git for version control, collaborating with the team through GitHub for project management and source code management.
- **Testing and Quality Assurance:** Conducted unit and integration testing to ensure the stability and functionality of web applications before deployment.

SKILLS

- **Program Language:** Python, Javascript, Typescripts, HTML, CSS
- **Libraries and Frameworks:** React, Django, Nextjs, Tailwind Css, Supabase
- **Tools and Platforms:** Git, Github, Figma, Vercel, Aws, Heroku

PROJECTS

- **Votez:** Streamlining voter management to enhance election participation and transparency.
- **Portfolio Website:** Showcasing my projects and achievements with a sleek, personal touch.
